Quill sample

A four-page packet. Select pages in the sidebar. Insert only brings pages in from another PDF. Extract downloads a new file and leaves this one alone.

Page two

Portrait. Rotate this page and save a copy. The turn is stored in the PDF, not just on screen, so print and the next open keep it.

Wide page

This sheet is landscape. Fit page should show the whole sheet, including the bar marked TOP.

Page four

Drag a thumbnail to reorder. Remove is undoable until you save a copy. Print uses the pages as they are now, edits included.
